

ANIMATIC[®] CATTLEMIN

An advanced mineral dense formulation for the dairy animal

- An advanced mineral dense formulation with Vitamin A and D3.
- Flavoured to increase palatability.
- **Increases;**
 - Conception rate
 - Milk Yield
- Boosts Immunity
- Prevents reproductive problems such as retained placenta, milk fever etc.
- Contains balanced trace elements as required by high producing dairy animals.

Method of feeding;

- Free choice
- Mixed with feed/total mixed ration

 Quality at an affordable price!

ANIMATIC[®] CATTLEMIN

An advanced mineral dense formulation for the dairy animal

IMPORTANT MINERALS IN CATTLE:

Major minerals:

Calcium, Phosphorous, Magnesium, Sodium, Chloride, Sulphur

Minor minerals:

Iron, Manganese, Zinc, Copper, Iodine, Cobalt, Selenium

IMPORTANCE OF MINERALS:

- Production
- Body Maintenance
- Reproduction
- Metabolism.

MAJOR SIGNS OF MINERAL DEFICIENCIES:

- Decreased production (meat/ milk)
- Silent heats
- Stunted growth
- Recurrent mastitis
- Pica : eating of foreign objects
- Persistent unexplained lameness
- Reduced immunity
- Scabby skin on legs
- Change of coat colour to brown "gingering" especially in Friesians
- Low conception rates
- Retained after births
- Repeat service
- Milk fever
- Slow wound healing
- Hair loss
- Joint stiffness

BENEFITS OF ANIMATIC CATTLEMIN:

- Increases conception rate (1 calf/cow/year)
- Increases milk yield
- Boosts immunity
- Has vitamins A and D₃
- Prevents reproductive problems: e.g. milk fever, retained afterbirth e.t.c
- Has good balance of trace elements:- maintains high performance and good fertility
- Replaces minerals lost during milk production
- Has a flavour to increase palatability

METHOD OF FEEDING:

- Free choice
- Mixed with feed/TMR
- Not given in water

PRESENTATION:

1kg, 2kgs, 5kgs, 10kgs, 20kgs

Cow's udder

Healthy cow
