

ANIMATIC[®] EPSOM SALT

COMPOSITION: :

Substance contains 99.5% (minimum) of MgSO₄.7H₂O (Epsom salt).

DESCRIPTION: ANIMATIC[®] EPSOM SALT is a saline laxative and purgative. It is used in all livestock to relieve constipation from non-specific causes. Also used in control of Hypomagnesaemia (grass tetany) in ruminants and as a soaking solution

TREATMENT:

- Constipation in animals, caused by sudden change of feed and eating dry feed with a lot of fibre in it.
- Hypomagnesaemia (Grass tetany) in ruminants.
- As a soaking solution.

DOSAGE:

Saline purgative (given with water as a drench):

- Sheep, Goats 15 – 30 gm
- Cattle 250 – 500 gm
- Horses 50 – 100 gm
- Dogs 5 – 25 gm
- Cats 2 – 5 gm

Hypomagnesaemia (Grass Tetany):

This occurs when animals are fed on young succulent pastures.

Given by subcutaneous injection (10% solution with sterile water):

- Sheep, Goats 20 ml
- Calves 100 ml
- Cattle 150 – 200 ml

As a soaking solution:

Pour at least 2 cups of ANIMATIC[®] EPSOM SALT under warm, running bath water. Soak for 20 minutes to relieve sore, tired muscles. As a warm compress: dissolve 1 cup of ANIMATIC[®] EPSOM SALT in 1 liter of warm water, apply with bandages or towelling for 30 minutes up to three times a day.

Presentation:

250gms, 500gms
