

PRAZISAM PLUS

COMPOSITION

Each PRAZISAM PLUS tablet contains

Praziquantel USP	: 50 mg
Pyrantel Pamoate USP	: 144 mg
Fenbendazole B.P. Vet:	500 mg

INDICATIONS

For regular deworming of tapeworms, Praziquantel kills mature and immature stages of common species of tapeworms like *Echinococcus granulosus*, *E. multilocularis*, *Taenia multiceps*, *T. hydatigena*, *T. pisiformis*, *T. taeniformis*, *Dipylidium caninum*.

Pyrantel pamoate is specifically indicated for the treatment of infection with any of the present either alone as a mixed infection.

- 1) *Enterobius vermicularis* (threadworm, pinworm)
- 2) *Ascaris lumbricoides* (roundworm)
- 3) *Ancylostoma caninum*

For regular deworming of roundworms, Fenbendazole is very effective on ascarids (*Toxocara canis*, *Toxascaris leonine*), hookworms (*Ancylostoma caninum*, *Uncinaria stenocephala*) and whipworms (*Trichuris vulpis*).

Fenbendazole works on both mature and immature stages of these nematodes. PRAZISAM PLUS is safe to pregnant bitches and puppies.
