

# Diclazuril 0.5% w/w

## Threat of Coccidiosis continues to prevail...

### The FIVE STAR Anticoccidial

Ensures Uniform Distribution

Endures Pelleting Temperature

Internationally used Concentration of 0.5%

Eliminates Caecal & Intestinal Coccidiosis

Economical To Ionophores

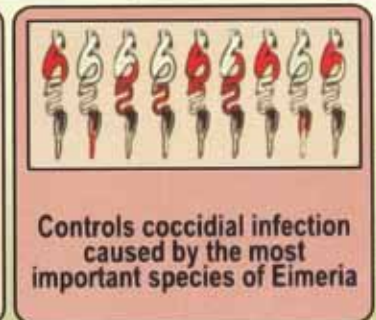

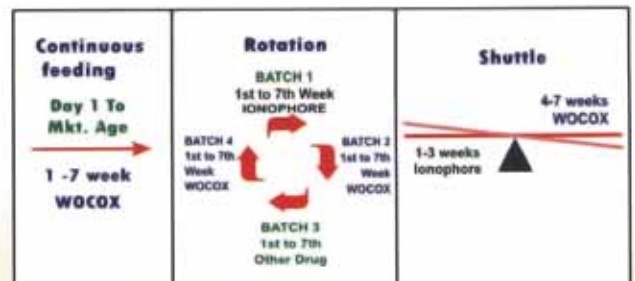

### Strength of WOCOX

- Premier global formulation (as 0.5%) introduced for poultry
- Precise blend of carriers to ensure uniform distribution in feed
- Perfectly suits all broiler anticoccidial programs

### Advantages of WOCOX

- Latest chemical with no resistance
- Truly broad spectrum
- Reduces oocyst count in litter
- Improves weight gain, FCR, livability
- Nil withdrawal period
- Safety Index : 10 times the recommended dose

**Composition:** Each kg of premix contains:  
 5g of Diclazuril (0.5% w/w)  
 Nutritive carrier q.s.

**Presentation :** 1 kg & 5 kg

**Mixing Rate :** 200 g/ ton of feed

The chemical solution designed for Coccidia problem

## OSHO CHEMICAL INDUSTRIES LTD.
