

# CALMAG LIQUID

IMPORTED & DISTRIBUTED BY:  
**OSHO CHEMICAL INDUSTRIES LTD.**

P. O. Box 49916 00100 Nairobi, Kenya Tel:- 3912000  
Mobile: 0726 880480 / 0733 880480  
Email: oshochem@oshochem.com  
Web: www.oshochem.com

Origin: EC

Shelf Life: 2 years in original unopened container Stored in a Cool, Dry & Dark place.

Batch No.

Mfg Date:

Net weight:  
**20 KG**

**PH Value: 5.5 to 7.5**

**Chemical Analysis:**

Total Nitrogen	:	13.00%
Calcium	:	9.15 (Cao 12.8%)
Magnesium	:	2.6(MgO 4.30%)
Sulphur	:	0.5g/ltr
Boron (B)	:	500 ppm
Copper ( Cu)	:	750 ppm
Iron ( Fe)	:	1500 ppm
Mangenese ( Mn)	:	750 ppm
Molybdeum ( Mo)	:	105ppm
Zinc ( Zn)	:	750 ppm

Product characteristics: Mix of liquid Calcium Nitrate / Magnesium Nitrate

**PRECAUTION:**

- STORE OUT OF REACH OF CHILDREN
- KEEP AWAY FROM FOOD STUFFS. - WASH YOUR HANDS AFTER USE.

CALMAG is fertilizer and plant booster which has a wide range of essential plant nutrients. It supplements the plant with calcium, magnesium and many other essential elements required for optimum plant production. It is specially formulated for rapid and efficient absorption through the leaves.

No waste occurs from leaching. CALMAG is particularly useful for flowers, vegetables (fruiting types) and fruit crops during critical stages when calcium and magnesium requirements are high. CALMAG provides elementary feeding of balanced fertilizer under heavy cropping conditions; under wet and dry condition. When the plant stops normal feeding due to stress.

**DIRECTION FOR USE:**

5-10L/ha at 10-14 days interval. CALMAG may be applied alone as a spray or can be applied as a tank mix with insecticides and fungicides. CALMAG can also be applied through fertigation and other irrigation systems such as sprinkles, drippers and centre pivot system.
