

CYPER[®] 10 EC

INSECTICIDE

Guarantee: **Cypermethrin 10% w/v**
 Formulation: **Emulsifiable Concentrate**
 Classification: **Pyrethroid**

General Description

CYPER 10EC is a broad spectrum, non-systemic, pyrethroid insecticide with residual action for the excellent control of insect pests on various crops.

It can be used for the control of a wide range of pests including thrips, aphids, whiteflies, caterpillars and leaf miners on a wide variety of crops.

Mode of Action

It works through contact and stomach action as well as exhibits anti-feeding action. It acts on the nervous system of the insect and disturbs the function of neurons by interaction with the sodium channel.
