DESCRIPTION: FLOSUL PLUS is a flowable suspension concentrate of Sulphur for control of Powdery Mildew on Roses, French beans, Tomatoes and Capsicums, and rust on Carnations. It has more particles of same volume and weight of Sulphur which gives it a better coverage, hence high efficiency and increased activity. The high suspensibility gives it a homogenous distribution of sulphur in spray. The liquid stickers give it a greater adhesion and rain fastness. No need for pre-mix hence saves time, energy and labour. Easy to pour and measure, environmentally friendly and acceptable, no dust, no inhalation, minimum exposure hazard. No fire hazard, less abrasive on expensive spray equipment. No resistance after 50 years of sulphur usage.

DIRECTIONS FOR USE: Spray Preparation: Always shake the bottle vigorously before using. Half fill the tank with required amount of water, then add the required quantity of FLOSUL PLUS. Stir and add remaining volume of water and keep agitating even while spraying. * **WARNING:** Avoid spraying on cucumber and melons.

RATES OF USE				
CROP	DISEASE	RATE in 20Lt Water	RATE/Hect.	INTERVAL
French beans, Tomatoes, capsicums	Powdery Mildew	20-40ml	1-2 Litres	Apply at 7-14 days intervals as necessary
Roses	Powdery Mildew	20-40ml	1-2 Litres	Apply at 7-14 days intervals as necessary
Carnations	Rust	20ml	2 Litres	Apply at 7-14 days intervals as necessary

HANDLING PRECAUTION: FLOSUL PLUS is slightly irritant to the eyes and may cause skin irritation. Sulphur is potentially allergic in some individuals. Wear protective clothing, gloves, overalls etc. When preparing spray mixture or spraying, do not eat, drink or smoke when handling this product. Avoid breathing vapour or mist, do not spray upwind. This product is harmful if swallowed.

STORAGE & DISPOSAL: FLOSUL PLUS must be stored in original tightly closed container, away from children, livestock or foodstuff, in a cool dry, dark well ventilated place. Empty containers must be triple rinsed, punctured and destroyed by burning in approved incinerators or burying, away from water sources and human habitation, in accordance with national regulations and legislation.

ENVIRONMENTAL HAZARDS: FLOSUL PLUS is not toxic to bees, fish or wildlife.

FIRST AID INSTRUCTIONS: In case of inhalation: Move patient to fresh air. **If in contact with eyes:** Wash eyes with running water for at least 15 minutes. **If in contact with skin:** Remove contaminated clothing. Wash with plenty of water and soap. See a doctor if irritation persists. **If ingested:** Induce vomiting by touching the back of the throat with clean fingers or by giving an ounce of syrup of ipecac with 2 glasses of water. Do not give anything by mouth to an unconscious person. Dilute the poison by giving large amounts of water and do gastric lavage unless patient is already vomiting. Obtain medical attention immediately.

TOXICOLOGICAL INFORMATION: Symptoms of poisoning: Acute toxic effect may include nausea, headache, diarrhea, upon ingestion of large quantities or dermal irritation if exposed to skin

Antidote: No known antidote. **Note to doctor:** Treat symptomatically.
