

DESCRIPTION: PROPIMAX 25EC is a fungicide for use in wheat to control rust, Leaf blotch and Spot blotch.
MODE OF ACTION: PROPIMAX 25EC is a fungicide based on propiconazole and belongs to the family of triazole fungicides. It is an ergosterol biosynthesis inhibitor. Propiconazole moves upwards in the vascular system and is distributed to give full protection to new growths.

PREPARATIONS OF SPRAY MIXTURE: Fill the spray tank with half of the required amount of water. Add the required amount of Propimax 25EC. Fill the spray tank to the required level with water and continue agitation.

Application Timing: Start applying Propimax 25EC when disease is expected for preventive purpose or when the first signs of disease infestation appear (or when the disease is actively developing for curative action and as an eradicant).

Application Technique: Propimax 25EC may be applied by ground application with tractor and boom sprayer. Always use a well calibrated sprayer to ensure good coverage of the foliage.

CROP	DISEASES	RATES OF USE		
		RATES	INTERVAL	RE-ENTRY INTERVAL
Wheat	Rust Leaf blotch, Spot blotch	50ml/20L (0.5L/Ha in 200-300L of water)	3-4 weeks depending on weather condition	12 Hours

Pre harvest Interval: 30 days

PRECAUTIONS/HAZARDS: Handling: Wear suitable protective clothing, namely overall, hat, impermeable boots, hand gloves and face shield when preparing the spray mixture and spraying. Avoid breathing the spray mist, contact with skin, eyes and clothing. Do not apply upwind and stay out of the spray mist. Do not smoke, drink or eat while handling the product. After work: Change clothes and wash hands and face with soap and water thoroughly. Wash the spraying equipment and any contaminated clothing carefully.

STORAGE AND DISPOSAL: Store in tightly closed (or sealed) original container, in a cool dry place out of reach of children and unauthorised persons, away from food, drinks and animal feed. Triple rinse empty container and add washings to spray mixture, then dispose empty container in a safe and authorised place away from human habitation and water sources, in accordance with national regulations and legislation. Do not reuse containers for any other purpose. Do not re-use empty containers for any other purposes. Pesticide spray mixture or rinsate that cannot be used must be disposed off in a safe place where it cannot contaminate surface water and ditches.

PESTICIDE LEAKAGE AND SPILLAGE: In the event of heavy spillage, collect the contaminated soil layer and put in an authorised place away from water supplies. Soaking in sand, soil or sawdust may collect small spillage. Contaminated absorbent material must be stored in marked waste bins prior to disposal in authorised landfill site. The pesticide store must be decontaminated by washing with a lot of water.

WILDLIFE AND ENVIRONMENTAL HAZARDS: Propimax 25EC is toxic to fish and other aquatic organisms. Do not contaminate ponds and waterways by direct application, cleaning of equipment, disposal of wastes and empty container.

FIRST AID INSTRUCTIONS: If inhaled: Remove the patient to fresh air. Keep the patient warm and at rest. If breathing is difficult, give artificial oxygen. If the patient is not breathing, apply artificial respiration and seek medical attention. **If in contact with skin:** Remove contaminated clothing and wash off with plenty of water and soap. Consult the doctor in case complaints persist. **If in contact with eyes:** Rinse thoroughly with running water for at least 15 minutes. If pain persists consult an eye specialist. **If swallowed:** Administer activated charcoal, perform gastric lavage and induce vomiting. Never give anything by mouth to an unconscious persons. Consult a doctor.

TOXICOLOGICAL INFORMATION: Propimax is mildly harmful if ingested, irritating if in contact with skin and eyes. Avoid prolonged exposure to the Propimax 25EC concentrate.

SYMPTOMS OF POISONING: Prolonged exposure may cause moderate eye or skin irritation. If swallowed abdominal pain, nausea, gastritis, breathing difficulty or diarrhoea can occur. Exposure to high vapour levels may cause headache, dizziness, numbness, nausea incoordination, or other central nervous system effects. Skin allergic reactions may occur in some individuals.

Antidote: There is no specific antidote if this product is ingested.

NOTE TO PHYSICIAN: There is no specific treatment. Treat symptomatically and give supportive therapy. Vomiting may cause aspiration pneumonia.

MAELEZO: PROPIMAX 25EC ni kiuva kuvu ambacho hutumika katika kilimo cha ngano kudhibiti rust, Leaf blotch na Spot blotch.
JINSI INAVYOFANYA KAZI: Propimax 25 EC ni dawa ambayo imetengenezwa kutokana na 'propiconazole' na ambayo ni muundo wa 'triazole'. 'Propiconazole' hupenya ndani ya mimea na kutamba kwenye sehemu changa za mimea ili kuulinda dhidi ya magonjwa.

KUTAYARISHA DAWA: Changanya kiasi kinachohitajika cha Propimax 25 EC kwa kiasi kidogo cha maji. Ongeza kiasi cha maji kichosalia na uendelee kulingisha bomba. Unaweza kutumia pamoja na madawa mengi au mbolea za kilimo.

Wakati wa kutumia: Anza kutumia Propimax 25 EC wakati hali ya anga inapendelee kuenea kwa magonjwa ili kulingia mimea dhidi ya magonjwa au wakati dalili za magonjwa zimeonekana (au magonjwa yanaenea haraka) ili kuponyesha magonjwa. **Jinsi ya kutumia:** Propimax 25 EC inaweza kunyunyiziwa kwa kutumia tinga tinga na kifaa maalum cha kunyunyiza dawa. Hakikisha ya kwamba vyombo vya kunyunyiza dawa vimerekbishwa ipasavyo kabla ya kutumia.

KIPIMO CHA MATUMIZI			
MMEA	MAGONJWA	VIPIMO VYA MATUMIZI	MUDA WA KURUDIA
Ngano	Rust Leaf blotch, Spot blotch	mililita 50/Lita 20 (Lita 0.5/Hekta kwa Lita 200-300 za maji)	Wiki 3-4 kulingana na hewa
			Masa 12 baada ya kunyunyiza

MUDA SALAMA WA KUVUNA: Usivune vyakula kwenye shamba lililonyunyiziwa Propimax 25 EC kabla ya siku 30.
KAHADHARI: Matumizi: Vaa ngao la kujikinga, vizuizi vya mikono, uso (face shield) na kichwa na viatu visivyopenya maji unapatayarisha mchanganyiko wa dawa na maji na unaponyunyiza dawa. Jihadhari kupumua vumbi wala mvuke wa dawa. Mchanganyiko wa dawa usingie kwenye macho au kumwagikia ngozi na nguo ulizovalia. Usinyunyize dawa hii ukiulekeza upande upepo unakotoka. Usivute sigara, usile wala kunywa wakati unapotumia dawa hii. **Baada ya kazi:** Vaa nguo za kazi na vizuizi vya kujikinga. Oga mikono na uso kwa kutumia maji na sabuni. Safisha bomba la kunyunyiza dawa na mavazi yaliyomwagikiwa na dawa kwa uangalifu.

UHIFADHI NA UTUPAJI: Hifadhi dawa hii katika chombo chake asili ambacho kimefunikwa sawa sawa na kuweka mahali pakavu na pasipo na joto, mbali na watoto, watu wasioruhuswa, vyakula, maji na vyakula vya mifugo. Kopo tupu la dawa yafaa kusafishwa mara tatu, na maji hayo kumwagwa kwenye bomba la mchanganyiko wa dawa. Tupa makopo tupu pahali palipo salama na palioruhuswa, mbali na makao ya watu na chemchemi za maji, kulingana na sheria za utupaji. Mchanganyiko wa dawa na maji ambao haujatumika au maji yaliyoosha vyombo ni lazima itupiliwe mbali mahali ambapo ni salama, panapokubaliwa, mbali na chemi chemi ya maji.

DAWA IKIMWAGIKA AU KUVUJA: Chukua mchanga uliomwagikiwa na dawa, uweke mahali ambapo ni salama na mbali na maji. Dawa ikivuja, iloweshe kwa sehemu ndogo ya mchanga au 'sawdust' kisha uifungie mahali ambapo ni salama kabla ya kutupilia mbali mahali ambapo pameidhinishwa. Ghala la madawa ni lazima lioweshe mara kwa mara ili kutoa takataka ya dawa iliomwagika ama kuvuja.

MADHARA KWA MAZINGIRA: Propimax 25EC ni sumu kwa samaki na viumbe vingine vya maji. Usichafue mazingira kwa kunyunyiza, kumwaga makazi ya dawa, kutupa au kusunza mkoba wa dawa kwa mito, visima au vidimbi na chemchemi.

MAELEZO YA HUDUMA YA KWANZA: Ikipumuliwa: Pumzisha mgonjwa mahali penye hewa na pasipo na joto jingi wala baridi. Kama kunashida ya kupumua, mpe 'oxygen' na kama mgonjwa hapumui, msaidie apumue kisha umpeleke kwa daktari. **Ikimwagikia ngozi:** Vaa nguo ulizovalia na uoge mwili kwa kutumia kiasi kikubwa cha maji na sabuni. **Ikingia kwa macho:** Yasafishe macho kwa maji yanayotiririka kwa muda wa dakika 15. Mwasho ukiendelea muone daktari wa macho. **Ikimezwa:** Usipatie mjeruhi ambaye amezirai kitu chochote cha kunywa wala kula. Kama mjeruhi hajapoteza fahamu, mpe 'activated charcoal' kisha umfanye atapike. **MPELEKE MJERUHI KWA DAKTARI.**

MAELEZO KHUSU SUMU: Propimax 25 EC inaweza kusababisha madhara ikipumuliwa. Inaweza kusababisha mwasho wa ngozi, macho kuwa mekundu na kutokwa na machozi iwapo itaingia kwenye macho au kumwagikia ngozi kwa muda mrefu.

DALILI ZA KUSUMIKA: Dalili za kusumika ni mwasho kama imemwagikia macho au ngozi, kuurwa na tumbo, shida ya kupumua, unyonge usio wa kawaida na kuhara kama imezwa, kuurwa na kichwa na kuitafiliaa kwa misuli kama mvuke wa dawa ambayo haijachanganywa na maji imepumuliwa. **Tiba:** Hakuna makata maalum.

IWAPO DHARURA: Wasiliana na nambari hii isiyomalipo 0800720021/0800730030 (inapatikana masaa 24)

MAELEZO KWA DAKTARI: Hakuna tiba maalum. Tibu mgonjwa kulingana na dalili za maumivu. Kutapika kunaweza sababisha 'aspiration pneumonia'.

ILANI KWA MTUMIAJI: Dawa hii sharti itumiwe kulingana na maagizo yaliyo kwenye kibandiko. Ni hatia chini ya sheria za madawa ya kuangamiza wadudu wahanaribu kutumia au kuhifadhi dawa hii katika hali isiyosalama.

THIBITISHO: Dhamana ya muuzaji ni maelezo yaliyo kwenye kibandiko ambayo ni lazima yafuatwe kikamilifu. Mnuuzi ni lazima akubali hatari zozote zinazoweza kutokana na matumizi ya dawa hii kwa binadamu au mali na lazima aikubali dawa hii katika hali hiyo.
