

MOKRID[®]

10EC

Guarantee: **Alpha-Cypermethrin 10% w/v**
 Formulation: **Emulsifiable Concentrate**
 Classification: **Pyrethroid**

General Description:

MOKRID 10 EC is a broad spectrum insecticide for the control of major pests harmful to public health. It is a non systemic insecticide with contact and stomach action.

Mode of Action:

It exhibits contact and stomach action. It acts on the central and peripheral nervous system in very low doses.

Application:

For application in Domestic Situations (including kitchens); Public and Office Buildings; Hotels; Vehicles; Hospitals (excluding occupied wards); Municipal Buildings; Military use in and around barracks, Food Storage Areas, in food retailers, warehouses, raw material stores (excluding grain stores). Also can be used in animal husbandry areas such as dairies, farm outbuildings, and animal and avian housing.

Recommended Application Rates

PEST	APPLICATION	RATES
Flying pests & Mosquito	Walls, ceiling and beams of animal sheds, verandas and buildings where flies and mosquitoes are a nuisance.	2mls/Litre (10L/100M ²)
Crawling insects (Cockroaches & Ants)	Walls under sinks, around dustbins, refrigerator, stores and cupboards.	2mls/Litre
Bedbugs	Beds, walls and ceilings, cracks and crevices, chairs.	2mls/Litre

Repeat application at intervals of 1 to 2 months to prevent re-infestation. Outside ant-nests should also be sprayed.

USE LIMITATIONS:

Once diluted, MOKRID 10EC must be used the same day. Do not spray on freshly limed, or white washed walls. Allow 21 days before spraying on newly painted walls. Evacuate premises to be sprayed. Rentry interval 2 hrs.

ENVIRONMENTAL HAZARDS:

Do not contaminate ponds, waterways or ditches with the product or used containers. Do not apply when bees are actively foraging.
