

# SELECTA<sup>®</sup>

## TRIGGER SPRAYER

**Heavy duty**

**Tighten nozzle for mist**

**Loosen nozzle for jet**

**TRIGGER SPECIFICATIONS**

Nozzle orifice dia	Ø0.4 mm
Spray output per stroke	1.1 ± 0.2gr. (Using distilled water)
Spray angle	0~60 170 30mm ( Distance: 150mm)
Durability	More than 50,000 continuous trigger pulls, equivalent to the use of 120 bottles of 500ml
Weight	40 ± 1.2gr. (LB=250mm)

**FULLY ADJUSTABLE NOZZLE**  
Adjustable nozzle offers full range of actuation options from stream to fine mist.

**HEAVY-DUTY TRIGGER VALVE**  
Lever also rocks back for constant spraying. The trigger has a textured surface to help grip with wet or gloved hands.

**PISTON SPRING**  
Unique internal stainless steel piston, designed to provide better chemical resistance.

**BOTTLE LOCK**  
Turn-screw bottle locks allows bottle to be easily refilled by user.

**INTERNAL DIP TUBE WITH FILTER**  
The dip tubes have a filter to prevent clogging and trigger damage.

**ERGONOMICALLY CURVED TANK**  
Heavy duty, UV resistant and High density chemical resistant plastic tank.

**LIQUID MEASUREMENT MARKINGS**  
Comprehensive measurement marks are moulded into the plastic bottle and so will not rub or wash off.

**FLAT BASE**  
Sits on the ground without tipping for easy filling and storage

**SELECTA<sup>®</sup> trigger-sprayer is a versatile, robust, multipurpose sprayer with a 1.3 ml output per stroke. Designed with user comfort in mind, with a rounded, ergonomic body style and a wide trigger shape.**

**SELECTA<sup>®</sup> is suitable for a wide range of uses including:**

- Garden spraying
- Pest control
- Weed & Disease control
- Sterilization
- Environmental protection
- Household cleaning

**INSTRUCTION FOR DURABILITY OF THE PUMP:-**

1. After use empty the contents from the sprayer
2. Clean the bottle and trigger with water
3. Do not keep any spray material in the sprayer as this may damage the bottle and trigger
